

SOUTHERN MAINE COMMUNITY COLLEGE
South Portland, Maine 04106

Title: Fire Administration
Credit Hours: 3
Format: Lecture, Discussion, Research, Writing
Instructors: Steve Willis, Howard Rice & guest speakers
E-mail: swillis@smccME.edu or hfrice@maine.rr.com

Catalog Number: FIRE 260
Total Contact Hours: 45
Semester: Spring, 2020
Office: Howe Hall Room 204
Tel: 741-5808 or 781-2610

Course Syllabus

Course Description

This course is a broad overview of the administrative practices employed in today's fire/rescue services. The course uses pre-class readings, case studies, class discussions + presentations, group work, guest speakers, research and writing assignments to focus on the role of the fire-EMS administrator within the context of municipal government. The course will emphasize managerial ethics, accountability, the changing environment, planning, financial management and preparing for the future. This is a writing-intensive course with weekly draft and final paper assignments. The course also requires the development of a grant application (FEMA or other), and development and defense of a Fire Science Capstone Portfolio documenting attainment of SMCC Fire Science learning outcomes and student academic and professional growth.

Prerequisites: ENGL 100 and 2nd year status.

Fire Science Learning Outcomes

Successful completion of an associate's degree in fire science from Southern Maine Community College will enable students to:

- 1) Analyze and apply proactive fire prevention and control methods for safe and cost effective fire protection.
- 2) Analyze and apply reactive fire and emergency scene operations for safe and cost effective fire protection.
- 3) Examine and appraise principles of supervision and management necessary for effective leadership and administration in the fire/rescue service.

Course Objectives

Upon successful completing the course, the student will be able to:

- Identify career development opportunities and strategies for success
- Demonstrate effective verbal and written communication skills
- Explain the history and development of leadership and administration
- Articulate the concepts of decision-making, organizing, directing and controlling
- Recognize appropriate assessment and disciplinary actions and their impact on employee behavior
- Evaluate methods of managing available resources
- Identify roles and responsibilities of leaders in organizations
- Compare and contrast the traits of effective versus ineffective supervision and management styles
- Identify and assess safety needs for both emergency and non-emergency situations
- Explain the importance of ethics as they apply to supervisors and administrators
- Explain the role of a company officer in Incident Management Systems (ICSs)
- Describe current legal issues and the benefits of documentation
- Identify and analyze current issues and trends in human resources management, training, education, health and safety
- Research, organize, draft and finalize for submission a major (FEMA AFG, FPS, SAFER or equivalent) grant application and supporting documentation that demonstrates mastery of grantsmanship and technical writing skills.
- Develop, present and defend a Fire Science Capstone Portfolio documenting attainment of the Fire Science Learning Outcomes and career readiness.

Writing Assignments (MFSI/J+B Fire Officer 3rd Edition Fire Officer I+II, 2016 version)

- Fire Officer I + II Project 2: Today's and Tomorrow's U.S. Fire-EMS Service
- Fire Officer I + II Project 5: Safety & Risk Management
- Fire Officer I + II Project 8: Training & Coaching
- Fire Officer I + II Project 12: Policy Development
- Fire Officer I + II Project 14: FEMA Grant Application

Writing assignments will comply with American Psychological Association (APA) style, as referenced in Hacker's *A Writer's Reference*, 7th edition and SMCC's Writing Across the Curriculum (WAC) guidance.

Course Requirements

Students will be required to complete pre-class reading assignments and submit Pre-Class Note Taking Guides (PCNTGs) over the content to establish a foundation for interactive lectures, discussions and group application exercise. Student understanding of content and application challenges will be assessed by PCNTGs, online chapter quizzes and a comprehensive final exam. ***This is a writing-intensive course:*** Students will be required to complete (and submit prior to deadlines) draft and final versions of 5 writing assignments during the semester. In addition, a 1-week upgrade (to 90% maximum) opportunity for graded papers will be afforded students who meet submission deadlines.

Fire Science Capstone Portfolio

Each student will be required to develop, submit, present and defend a Fire Science Capstone Portfolio documenting attainment of Fire Science learning outcomes and student academic and professional growth. Portfolio development will be a semester-long assignment. Students will present and defend their thesis portfolios before a fire-EMS chiefs' and educators' panel in dress rehearsal (Week 14) and final presentations (Week 15).

Mentoring Opportunity

Students may apply to serve as Fire Science Peer Mentors and/or Fire Science Ambassadors for the semester as an extra credit or SMCC Honors Program project. Student mentors will be assigned one or more 1st year Fire Science student(s) to welcome, guide, advise and support throughout the semester. Student ambassadors will organize and represent the Fire Science department in prospective student briefings scheduled periodically throughout the semester. Mentoring and briefing activities must be documented, with reflections by both the mentor, mentee and ambassadors. Student mentors and ambassadors may earn up to a full letter higher course grade in FIRE 260 based on their mentoring and ambassador contributions. Application deadline will be the end of Week 2 of the semester. For more information, see course instructors.

Attendance

Attendance is expected at all classes. Attendance will be recorded and will affect student's grade. For the purpose of this course, students will be reported to the SMCC registrar as no longer attending after two consecutive, or a total of three, absences from the class resulting in a grade of "F" for the course. Each tardy will count as ½ of an absence. For more information, please refer to the SMCC Student Handbook. Students are expected to notify the instructor in advance concerning absences and are responsible for submitting all materials on time despite absences, excused or unexcused.

Course Policies

Human dignity and integrity: All class participants are expected to treat others (instructor, students, guest speakers, etc.) with respect. Some of the communications in this course will be via e-mail and online discussions that lack the benefit of in-person, non-verbal context. Students are cautioned to carefully select words and phrases and maintain a professional in-class and online demeanor at all times.

Students are expected to:

- Respect the classroom, fellow students and faculty: *By being punctual, taking off hats, being careful with food and drinks, speaking non-judgmentally, listening to others and respecting differing views.*
- Staying engaged: *By turning off pagers, setting cell phones to vibrate, and not text-messaging during class.* Laptops and all electronic devices must remain "on task" at all times on a "1 strike and it's out" basis.
- Work hard and be accountable: *By taking the course seriously, managing your time, completing pre-class readings, getting assignments in on time, and studying for quizzes and tests.*
- Conform to netiquette requirements and guidelines in all electronic communications.

Original work: Students are expected to submit original work unless other sources are clearly credited, and to equitably share the load in group work. Cheating will not be tolerated. Students found to have cheated will be penalized with actions up to and including a failing course grade following policies listed in the SMCC Code of Student Conduct.

Add/Drop

SMCC's course add/drop deadline for the spring '20 semester is Tuesday of Week 2 at 1700 hours. If you drop this course before the deadline, you will receive a full tuition refund. If not, you will be billed the full cost of the course. If you drop the course before 4/13/20 @ 1700 hours, a "W" will be assigned as the course grade.

Mid-Term Grades

After students have completed Week 8 (Mid-term) of the course, instructors will post mid-term grades for all students. Unsatisfactory performance will be determined based on a combination of grades, attendance and assignment completion. Mid-term grades are intended to help students stay on track. Students with unsatisfactory mid-term grades will be urged to meet with Fire Science tutors weekly until performance returns to a satisfactory level.

Student Evaluation and Grading

All grading will be done in accordance with SMCC policies. Each student's final grade will be based on the following percentages:

30%	Quizzes (PCNTG [20%] + online [10%])
30%	Writing Assignments (10% drafts, 20% final papers)
30%	Fire Science Thesis Portfolio & Presentation
10%	Comprehensive Final Exam

Texts, Tools, and/or Supplies: Required texts:

- 1) Fire and Emergency Services Administration (with J+B Navigate online codes), 2nd Ed., (SMEBY, L. Charles, Jr.) Jones and Bartlett. ISBN (text with Navigate 2 codes): 9781449605834 **Online Code Only ISBN:** 9781284213454
- 2) Fire Officer Principles and Practice, 3rd edition, Jones and Bartlett, ISBN 978-1-2840-7924-1
- 3) A Writer's Reference, 7th Ed., Diana Hacker, ISBN-10: 0-312-60246-8 (Hacker 6th edition is OK)

Your Keys to Success

Here are the recommended "*Seven Habits of Highly Effective FIRE 260 Students*":

- 1) ***I read my textbook prior to class and complete a detailed PCNTG:*** Pre-class readings form the foundation of class discussions (see course schedule). Weekly PCNTGs and online quizzes will be required.
- 2) ***I stay engaged and take good notes:*** Be an active participant in discussions and ask questions if you miss something. Note key points in your text as you read, and take notes during every class. **If it's on the board it should be in your notes!**
- 3) ***I study for quizzes and tests:*** Review the text + rewrite your notes' key points. Focus on chapter objectives.
- 4) ***I invest in my drafts:*** The time and energy you invest in your drafts will pay dividends in the quality (and grade) of your final papers. Ask someone you trust to review your draft papers. Make the most of upgrade opportunities!
- 5) ***I stay organized, meet deadlines + not get behind:*** Hold yourself accountable. Prioritize and manage your time and workload effectively. Late assignments will not be accepted and a "0" grade assigned. Zeros can kill your final grade!
- 6) ***I commit the time I need to be successful:*** You should expect to spend **at least 6-9 hours per week, every week** (3 hours in class, plus 3 to 6 hours outside of class) on this course. There are no shortcuts to success in this course.
- 7) ***I build a support network and ask for help when I need it:*** Find "study-buddies". Before you get too far behind, ask for help. You are responsible for doing the work but your classmates, instructor, tutors and the Academic Achievement Center want you to succeed and are ready to help you.
