

Immunization Requirements

DID YOU KNOW...

That immunization records are required to attend College?

Maine State law requires ALL college students to provide proof of immunization for:

- Measles, Mumps & Rubella 1&2 (two doses administered 30 days apart)
- Tetanus/Diphtheria (required every 10 years)

Please note:

- Residence hall students must provide proof of immunization prior to applying for housing.
- There are additional immunization requirements for students enrolled in the following degree programs; Nutrition & Dietetics, Medical Assisting, Nursing, Paramedicine, Radiography, and Respiratory Therapy. For more information, contact the Advising Office.

WHAT TO DO:

1. Submit Your Vaccine & Immunization Records

Ask your doctor for a copy of your immunization records and provide them to the Advising Office. Or, download the SMCC Immunization Form, available on the MyDegree section of My Maine Guide, and ask your doctor to complete it and provide it to the Advising Office. Be sure to follow up with the Advising Office to make sure your records were received.

OR

2. Request a Medical Waiver

Waive your immunization requirements based on medical reasons. A statement from your health care provider must be provided. Download the Immunization Form (available on the My Maine Guide student portal under My Degree), complete the waiver and submit it to the Advising Office.

OR

3. Get Immunizations

Need help finding a health care provider or clinic to access immunization or other health services? Use the information on the back side of this flier to find a doctor or clinic near you!

Please submit your form, record or waiver to the Advising Office:

Mail: 2 Fort Road, South Portland, ME 04021

Fax: 207-741-5760 **Email:** advising@smccME.edu
