1. Values of cells with an asterisk are suppressed for confidentiality purposes.
2. This is a count of degrees, not students. 12 students with 2nd degrees from SMCC in the study period are counted twice.
3. Continuing education after SMCC is reported from the National Student Clearinghouse.
Due to imperfect matching algorithms continuing education is likely underestimated.
4. Six students reflected in the Grad count but not anywhere else are International Students who were here on F-1Visas.
5. Of the 509 students with wages, 486 have wages reported in Maine. 95.5% of our working graduates work in Maine
